

Technical Specifications

CTX5	
General	
Working frequency	433.92 MHz, <5mW rolling code
Range in open area	100m
Maximum distance of the magnet from the detector housing	10mm
Tamper alarm time	About 20 sec
Power consumption at rest	2.5mA
Power consumption during transmission	10mA
Battery	3V CR123A
Battery life	Typically 10 years of work
Working temperature	-25 to + 55°C
Dimensions	105 x 24 x 27 mm
